PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/035,013	Applicant(s) KAYLOR ET AL.	
	Examiner Lyle A. Alexander	Art Unit 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 62-64,66 and 69-80 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 0308770 or DeSimone et al.

See the appropriate paragraph of the 11/19/07 Office action.

The 2/19/08 amendments have added the limitations claimed "... absorption pad that is located adjacent to the membrane strip ... the absorption pad covering an area under which the membrane strip is impacted by electromagnetic radiation." The contact of the seal(70) is adjacent to the strip(24). The claim language "...covering an area under which the membrane strip is impacted by electromagnetic radiation" has been properly read on the cited prior art that teaches first arm(76) under/biasing reagent pad(22) against the aperture bottom(44).

Response to Arguments

Applicant's arguments filed 2/19/08 have been fully considered but they are not persuasive.

Applicant's state the cited prior fails to teach the claimed "... absorption pad that is located adjacent to the membrane strip ... the absorption pad covering an area under which the membrane strip is impacted by electromagnetic radiation." The Office maintains the instant claim language is sufficiently broad that it has been properly read on the cited prior art. Specifically, elastomeric seal(70) is positioned within the receiving

port. The seal(70) meets the claimed limitations to "... absorb stray light ... comprising an absorption pad that is located adjacent to the membrane strip ...". The language "adjacent" is sufficiently broad to have been properly read on the seal(70) in contact with and adjacent to strip(24). The claim language "...covering an area under which the membrane strip is impacted by electromagnetic radiation" is not specific what structure is intended by "under" and has been properly read on the cited prior art that teaches first art(76) biasing reagent pad(22) against the aperture bottom(44).

Applicants state the cited prior art fails to teach the light absorbing member providing calibration for the reading device. These remarks are not commensurate in scope with the pending claims that are not directed to calibration.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A. Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Tuesday and Thursday.
